

Sprint 1 Report

Heading: Vocab Venture, 4/23/24

Actions to stop doing:

- The team should stop pushing before pulling to make sure there are no merge conflicts.

Actions to start doing:

- The team should start using Trello more often to make sure everyone knows which category our tasks are in.

Actions to keep doing:

- The team should keep having our meetings throughout the week.
- Keep consistent with our level of progress and code commits throughout the project so that we can exceed our planned goals

Work completed/not completed:

- Completed:
 - As a user, I want to be able to log in so I can continue where I left off
 - As a user, I want to be able to create an account so that I can play the game.
 - As a developer, I want a reliable database that has a system of tables with essential game information
 - As a developer, I want a login database table that stores the username and password to check if they are a user.
 - As a developer, I want a Progress database table that stores the username with the english word, spanish translation, and french translation so I can see the progress of the user.
 - As a user, I want to learn many different words so I can expand my vocabulary
 - As a user, I want to be able to select a language so that I can learn vocab words from the language I want.
- Not Completed:
 - As a user, I want to see my own progress to know how far I am in the game.

Work completion rate:

- 7 user stories completed
- Total number of estimated ideal work hours: 106 hours
- 1 user story every 3 days
